

My name is Iuliana Stirbu and I was born in Romania and permanently moved to UK in 2008 with my family. Prior to this I lived and worked in Europe.

My professional background is translating and interpreting European languages, with English being my main language.

I currently work part-time as an administrator for my husband's building company.

I am passionate about learning and self-development and believe this is a life-long process that begins at home, develops at school and continues through life.

I have four daughters, two of them currently attend year 3 and year 4 at Oak View School.

As a parent, I have a great interest in my children's education.

As a parent governor, I want to support the school in achieving their goals for all our children.

Should any parent need support, or just wish to talk to me, I am approachable and helpful.

My interests include reading, cycling, helping others, but the centre of my life is my family.
