## IMPORTANT

Dear Parents/Carers,

### **RE: Measles, chicken pox and shingles**

Please may we ask for your cooperation in an important matter. One of our pupils is receiving medical treatment which puts them at risk if they are exposed to measles, chicken pox and shingles.

The best way to protect our pupil from measles is for all children to be immunised against measles. Please would you discuss measles immunisation with your GP if your child has not already received it. If your child is suspected of having measles you should let us know immediately.

Our pupil is also at risk from chickenpox and would need to be given an injection within three days of contact. If your child is suspected of having chicken pox you should let us know immediately.

It is also important to let us know if shingles is in the household.

Your child is not at any risk whatsoever from this situation. However, the health and wellbeing of our pupil who is at risk does depend on the cooperation of all other parents and we hope you can help us.

With many thanks,

Yours sincerely,

*L Young*
